

A Fresh Look, Same Commitment to Our Community

SMGH Foundation

Strathroy Middlesex General Hospital Foundation

Hello!

We're excited to share an update about the Strathroy Middlesex General Hospital (SMGH) Foundation's brand! Our refreshed look aligns with the Middlesex Hospital Alliance, reinforcing our shared commitment to supporting exceptional healthcare in our community.

You'll notice that our new brand features a unified symbol and font style, visually demonstrating our deep connection with Strathroy Middlesex General Hospital. While our look has evolved, our commitment remains the same: ***to support every patient at SMGH receives the best possible care, close to home, from healthcare professionals who have the resources they need to help others.***

Because of you, doctors, nurses, and healthcare teams can continue providing life-changing care to our friends, family, and neighbours. Your generosity ensures that every patient who walks through SMGH's doors is met with excellence, compassion, and the right support when they need it most.

Importantly, your donations are helping to fund a ***new MRI machine***, a critical investment that will enhance patient care and allow for faster, more accurate diagnoses right here in our community. While the provincial government covers the costs of operating the MRI once it's in place, it does not provide funding for purchasing the machine or renovating the space to house it. ***That's where donors like you make a difference***—*your support ensures that our hospital has the technology and facilities needed to provide the best care possible.*

We are so grateful for your ongoing commitment. If you'd like to learn more about the impact of your support, I'd love to connect. For regular email updates, **scan the QR code below** to complete our contact form or **call us at 519-246-5906**

With heartfelt thanks,

Michelle Hancock
